PSS MONTHLY WEBINARS 2022

DATE		TITLE	DESCRIPTION	PRESENTER	CE
JAN 31	20 Min.	2022 ASC Quality Reporting Update	CMS requirements and quality reporting can be challenging for perioperative leaders in the ASC setting. Participants will receive current information on the quality program with updates on the 2022 final rule, what reporting is required, and the definitions/frequently asked questions for the indicators.	Gina Throneberry RN, MBA, CASC, CNOR ASC Association	
FEB 25	60 Min.	USP <800>: What You Need to Know	As healthcare providers and with recent changes to USP <800>, it is important to ensure protection of both our patients and staff when it comes to handling hazardous drugs. In this webinar we will dissect the new guidelines and standards so that you can implement best practices appropriately and safely.	Linda Kalata RN, BSN, CNOR Mobius Therapeutics	RN CASC
MAR		No Webinar	ASC LEADERSHIP NURSE CONFERENCE Join us in Dallas for the 2-day event! www.ascnurseleadership.com		
APR 29	60 Min.	The Great Resignation Recruiting, Hiring, and Retention in a Tight Labor Market	After unemployment rates reached 6.7% with 10 million fewer workers during the early days of the COVID-19 pandemic, the labor economy experienced two historic surprises. Demand for workers came soaring back at a velocity almost never seen before. Despite this demand, millions of workers either retired early or remained on the sidelines. These two forces collided to create the most unusual job market in living memory: an economy afflicted not by too few jobs, but too few workers. The Great Resignation of 2021 continues to roil the labor market, and as employers continue refining their hiring, recruiting, and retention practices, it is necessary to ensure that short-term needs do not evolve into long-term problem employees.	Abtin Mehdizadegan CGWG	RN CASC
MAY 23	20 Min.	Benchmarking Made Simple	When done well, a benchmarking study can provide valuable insight into your ASC operation, how your metrics and outcomes compare to the same in the past or to other similar organizations. It is an opportunity to systematically establish goals, collect data, measure performance, analyze findings and take action in order to effect improvement. If you often struggle to produce a meaningful benchmarking study, you are not alone. Join us for this webinar to review the process and learn best practices.	Vanessa Sindell MSN, BSN, RN, CAIP PSS	
JUN 20	60 Min.	What's Your Pulse: Connecting With and Understanding Your Staff	Considering today's post-COVID staffing challenges, this session will explore the importance of soliciting employee feedback in maintaining strong staff engagement. Participants will learn strategies to connect with team members to help drive retention. Topics will include management techniques, employee satisfaction surveys, and case studies based on employee comments.	Elizabeth Monroe COE, CPSS, PHR Kellie Wynne BSM Consulting	RN CASC

PSS MONTHLY WEBINARS 2022

DATE		TITLE	DESCRIPTION	PRESENTER	CE
JUL 25	20 Min.	Allied Health Workers in the ASC	Do you have Private Scrubs or neurophysiological intraoperative monitoring technicians accompany your surgeons? These are two examples of “allied health workers”, not to be confused with an Allied Health Professional (such as a PA). Learn what differentiates these practitioners and how to maintain appropriate credentialing documentation for this category.	Debra Stinchomb MBA, BSN, RN, CASC PSS	
AUG 22	60 Min.	Meaningful Hand Hygiene Surveillance	Hand hygiene surveillance is a required element of your ongoing Infection Control Plan, which is integrated into the QAPI Program. Do you set a hand hygiene goal each year? How do you conduct surveillance? What do you do with the surveillance data? This presentation will teach you how to conduct meaningful hand hygiene surveillance and what to do with the data.	Crissy Benze MSN, BSN, RN PSS	RN CASC CAIP
SEP 26	20 Min.	Excel for Nurse Leaders	Excel skills can be a powerful tool in managing time and compiling important data. In this webinar we will create a practical spreadsheet tool and review basic functions and formulas that can help ASC nurse leaders collect, organize and analyze their data in a useful way.	Nancy Stephens PSS	
OCT 28	60 Min.	Revenue Cycle Management Improving the Bottom Line	All too often the clinical manager of an ASC is unaware of how their day-to-day operation can affect the bottom line. In this webinar we will discuss how scheduling, knowing revenue per case, case costing awareness, and fee schedules can all affect the profitability of your surgery center. Invite your business office manager or billing manager to this webinar to improve your collaboration!	Kylie Kaczor MSN-RN, CASC, CMPE <i>National Medical Billing Company</i>	RN CASC
NOV 28	20 Min.	Annual Survey Watch Report	Our consulting team has the advantage of working with scores of facilities across the country, going through a variety of different types of surveys, including State licensing, accreditation, and Medicare certification. You can benefit from our experience! Join us for a summary of deficiencies cited over the past year.	Cyndi Krause BSN, RN, CRNO PSS	
DEC 16	60 Min.	Life Safety Risk Assessment What is it and What is Required?	The purpose of Life Safety Risk Assessments is to identify and manage all risks associated with maintaining a safe, functional, and supportive environment. The risk assessments focus on the building or space and the special features and equipment that are designed to protect patients, visitors and staff: safety and security, hazardous materials and waste, fire life safety, medical equipment, utilities, etc. Join us to learn more about the various types of assessments and their specific functions.	John Crowder, Jr. PG, CHFM, CFP PSS	RN CASC
